

RKY CAMP

ON EAGLE LAKE

2022 COVID-19 protocols

Positive COVID-19 Test Before Camp

- Campers and staff who test positive prior to camp should
 - Contact the camp if the arrival date will be affected.
 - Isolate for 5 days. Beginning the next full day.
 - Upon completion of necessary isolation time as per above, campers/staff will be allowed to come to camp with proof of a negative RAT test if it has been at least 24 hours since their symptoms started improving (48 hours for nausea, vomiting, and/or diarrhea), they do not have a fever, and as long as they do not develop any additional symptoms.

Return to Camp Protocol Following a Positive COVID-19 Test

- Return of campers and staff to camp will be facilitated on a case-by-case basis
- As per Ministry of Health Guidelines, anyone attending camp after completing isolation must wear a mask from days 6 to 10, unless sleeping. Sleeping and living accommodations for campers will be made on a case-by-case basis. All meals during this time will be eaten outside in the outdoor center screened in extension.
- Campers/Staff will be limited to outdoor activities.
- If a camper/staff has come to camp with an approved (by RKY Camp) Vaccine medical exemption, they must isolate for 10 days prior to returning to camp and then follow the initial return to camp protocol.

Screening

- **Pre arrival**
 - Campers/Staff are required to complete the COVID-19 School and Child Care Screening before departing for camp. **Please email yourself or take a screen shot of the time stamped result.** You will be asked to present this at drop off as part of the check in process.
 - <https://covid-19.ontario.ca/school-screening/>
 - If screening is failed:
 - Contact the camp
 - director@rkycamp.org
 - 613-539-0036
 - Campers/staff must have two negative rapid antigen tests results 24-48 hours apart.

- Campers/staff will be allowed to come to camp if it has been at least 24 hours since their symptoms started improving (48 hours for nausea, vomiting, and/or diarrhea), they do not have a fever, and as long as they do not develop any additional symptoms.
 - Upon arrival at camp, campers/staff may be required to do a Rapid Antigen Test
- **Daily**
 - Staff – self screen before coming to breakfast based on Ontario Screening Tool for schools and childcare settings.
 - If screening is failed, staff to see the wellness team.
 - Campers – self screen before coming to breakfast and will be asked to notify their staff members if they are experiencing any COVID-19 symptoms – based on the COVID-19 School and Child Care Screening. Staff will then contact the wellness team for assessment.
 - COVID assessment includes establishing if symptoms are not COVID related (dehydration headache, seasonal allergies, pre existing cough etc) as well as a rapid antigen test.
 - If a camper or staff is **presumed** to have COVID-19, they must begin an isolation period and be picked up from camp. To return to camp the following requirements must be met:
 - Campers/staff must have two negative rapid antigen tests results 24 hours apart.
 - Campers/staff will be allowed to come to camp if it has been at least 24 hours since their symptoms started improving (48 hours for nausea, vomiting, and/or diarrhea), they do not have a fever, and as long as they do not develop any additional symptoms.
 - Upon arrival at camp, campers/staff may be required to do a Rapid Antigen Test
 - If a camper or staff **test positive** for COVID-19, they must begin a 5 day isolation period at home (starting the day after the positive test). The process for returning to camp after the 5 day isolation period will be discussed on a case by case basis with families and our wellness team as well as the camp director.

Testing

- **Pre arrival**
 - All staff and campers must complete one Rapid Antigen Test (RAT) 48 hours before arriving to camp and a second RAT the morning of their departure for camp.
 - <https://covid-19.ontario.ca/rapid-test-locator>
 - If you are unable to procure rapid tests, please contact the camp a minimum of two weeks before your scheduled session.
 - **Campers/staff will attest to this via a signed attestation at camp drop off.**
- **On going**
 - Staff to self-test via a rapid antigen test twice per week.

- **Symptoms**

- Test via Rapid Antigen Test if required as per Ontario Screening Tool for schools and childcare settings. <https://covid-19.ontario.ca/school-screening/>
 - If negative, treat symptoms as required. Which may or may not include an isolation period.
 - If positive, camper/staff goes home as soon as possible (see screening for next steps)

Masking

- To be worn if required or recommended by Public Health or Ministry of Health guidance documents.

Cohorts/Social Distancing

- We will be organizing indoor space and programming to limit the mixing of different sections of camp for the first 5 days campers are on site. All of camp will eat in our newly constructed dining hall as it is fitted with an air circulation system and has a floor space of 5000 sq feet.
- RKY Camp will not be cohorting or enforcing Social Distancing as it relates to outdoor programming this summer.

Hand washing and Sanitization

- Handwashing prior to all meals will be strongly encouraged.
- Hand sanitizer will be used by all campers/staff entering the dining hall prior to meals.
- Hand sanitizer will be made available throughout camp including, living spaces, program spaces, washrooms and on out trips.
- Campers and staff will be required to sanitize their hands before entering any indoor space at camp

Cleaning and Disinfecting

- All frequently/commonly touched or shared surfaces on site will be cleaned twice daily and disinfected as frequently as is necessary to maintain a sanitary condition.
- All program equipment will be cleaned and disinfected as frequently as is necessary to maintain a sanitary condition.

Assessment appendix:

- This flow chart is taken from the following Ministry of Health document, which we have been instructed to follow by our Local Public Health Unit (June 2nd, version).
 - https://www.health.gov.on.ca/en/pro/programs/publichealth/coronavirus/docs/contact_mgmt/management_cases_contacts.pdf

You have symptoms and are concerned you may have COVID-19. Now what?
